## Seattle Police Department Case Investigation Report

Case Investigation Report: 2014-22121

A subsequent search warrant was obtained for the above residence and was executed on March 20, 2014. Though the residence was unoccupied at the time of entry, intelligence was obtained that Rick Jones (JONES) was likely at work; employed as an engineer at the private residence of Bill & Malinda Gates.

Det. Vijarro and I departed the scene and drove to the Gates residence in an effort at contacting JONES. The remainder of the team remained processed the scene under the supervision of Det. Sgt. Thomas.

We approached the security office located at the Gates' property, identified ourselves, and asked to speak with JONES.

JONES entered the security office minutes later at which time I introduced myself and Det. Vijarro. I asked JONES if he could speak with us outside and escorted him to my vehicle (a Hertz rental car; Nissan Pathfinder). I opened the rear passenger door for JONES and he took a seat, with the door open. I then sat in the rear seat behind the driver while Det. Vijarro sat in the front passenger seat.

I activated my voice recorder and Det. Vijarro activated her audio/video recorder. I advised JONES that our conversation was being both audio & video recorded and advised him that he was not under arrest, did not have to answer any questions or make any statements and that he was free to leave at any time. I then read JONES his Miranda warnings and proceeded with an interview, whereby the following facts were determined (in part; see audio/video recordings for entirety of interview).

JONES confirmed his physical address (1530 NW Market St #211) and that he currently resides alone, though he has had people staying with him intermittently (most recently Nov/Dec 2013). He uses two (2) email accounts; rick.allen.jones@hotmail.com and rckllnjns@gmail.com (the latter of which I obtained emails from Google pursuant to a search warrant and verified child pornography (CP) from this email account).

I informed JONES of the type of cases that I am responsible for investigating and asked him which computer in his home would have the child pornography on it? He replied, 'If any, it would be the one that's on the desk'.

I asked JONES with whom he has traded CP with and he acknowledged that there was only one (1) person and it was on one (1) occasion. JONES initially declined to provide the name of this other
